Report on Green Campus

Green campus is a place where environmental friendly practices and education combine to promote sustainable and eco friendly practices in the campus. The Objective of tree plantation drive were to enhance the tree cover on the campus and to sensitize the student towards importance of trees The purpose of tree plantation is to save the endangered environment and to beautify our life. Trees are the foremost source for producing oxygen in the environment, they help to reduce the level of CO₂. As the whole world is facing the problem of global warming and another environmental related issue so as to recover from such a problem. Planting the trees has become inevitable one of the most important aspects today The idea behind the tree plantation activity was to prorogate the message that planting the tree helps to maintain clear ecofriendly environment reduces pollution and improves the green ambience.

Keeping this in mind, every year BMIT has organized Tree Plantation Program in campus under NSS scheme. This program helps in encouraging eco- friendly environment which provides pure oxygen within the institute and creates awareness among campus students. Many trees are maintained in the campus (around 45species) to maintain the bio- diversity

Well Maintained Green Area management in the Campus
